

Subbiah S

AI Engineer | Python Developer | Software Developer Engineer | B.Tech CSE(AI&ML) Student
Tiruchirappalli, Tamil Nadu | +91 6382642933 | subbiahsenthilkumar15@gmail.com | [LinkedIn](#) | [GitHub](#)

EDUCATION

Kalasalingam Academy of Research and Education

B. Tech Computer Science Engineering (AIML) - CGPA : 8.78

Tamil Nadu

August 2023 – April 2027

Shri Jayendra Vidhyalaya CBSE School

SSLC : 90.8% - HSC : 74%

Tamil Nadu

July 2016 – April 2023

TECHNICAL SKILLS

Programming Languages: Python, C, Java

Artificial Intelligence: Machine Learning, Natural Language Processing (NLP), Prompt Engineering

Generative AI: LLM Application, Retrieval-Augmented Generation (RAG), LangChain, OpenAI API

Backend Frameworks: FastAPI, REST APIs, Flask

Front-end: HTML, CSS, JavaScript, React, TypeScript

Databases: PostgreSQL, MySQL

Developers Tools : Git, GitHub, MS Excel, MS Word, PowerPoint and Power BI

EXPERIENCE

Web Developer Intern

1Stop.ai

May 2025 – June 2025

Bengaluru

- Experienced web interfaces using HTML, CSS, JavaScript, Bootstrap, and jQuery, ensuring compatibility across multiple devices and screen sizes
- Collaborated with UI/UX designers to implement modern and user-friendly interface components
- Worked on website deployment and contributed to real-world frontend development tasks

PROJECTS

AI-Based Virtual Gesture Controller

Python, OpenCV, MediaPipe, PyAutoGUI, Tkinter

- Developed a gesture recognition system to control functions like mouse, volume, and brightness without physically
- Integrated OpenCV and MediaPipe for real-time hand tracking and gesture detection
- Achieved around 90% accuracy with smooth and responsive performance for hands-free interaction

Agmark Attendance System

Python, Flask, Supabase, JavaScript, Computer Vision, HTML, Tailwind CSS

- Built a smart attendance system using face recognition and QR code authentication
- Implemented JWT-based login and real-time face detection for secure attendance marking
- QR validation with location controllable, CSV report generation, and role-based dashboards for teachers and students

NoteBook Nayagan : AI Powered Smart Learning Platform

Python, JavaScript, TypeScript, HTML, Tailwind CSS

- Developed an AI-powered platform to convert study materials into summaries, keywords, and simplified notes
- Implemented features like content summarization, question generation, and mind map creation
- Designed a secure dashboard with chatbot integration for doubt resolution and learning tracking

CERTIFICATE & ACHIEVEMENTS

Design Analysis of Algorithm - CodeChef

Database Management System - CodeChef

SQL for Beginners - Scaler

React JS - Scaler

Cloud Computing - NPTEL

Responsible & Safe AI System - NPTEL
